

Create story tile

Step-by-step instructions for Create story tile in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Open the edit mode

Tap the profile icon in the top right and choose **Start editing**.

2

Create the story tile

Tap **Add new tile**, choose **Story**, enter a name and tap **Create tile**.

3

Add the first step

Open the tile, tap **Add new tile** and create the first step, for example **Wake up**.

4

Add more steps

Repeat this for every step, such as **Breakfast** and **Walk**, choosing an image each time.

5

View the story

Leave the edit mode, open the tile and browse the story with **Next** and **Previous**.

Hello, I'm going to show how to create a story tile. A story actually consists of different steps that together make a story. We'll do this by first going to edit mode. Then click on the profile picture at the top right. Next we click on start editing, and then below we can add a new tile. Then we choose story, and then we can think of the title. So we're going to make a morning routine. Once you've typed that, you can click on create tile. And then you'll see that you are indeed creating the story tile. We'll just confirm the position.

And what we do then is open the tile: Morning routine. And we see that the story is still empty, so there are no steps in this story yet. Then of course we start by adding a new tile at the bottom. And then we say: okay, we start with the first step, which is waking up. Then we can create the tile. We can choose how we want to add the image. For now we'll choose to pick from the internet. We can choose an image that fits well.

And then that's actually the first step of the story. The next step is that we add another tile. We can choose a name here again. We'll go for having breakfast here. Once we've filled that in, we can click on create tile again. Then we can choose an image again. I'll choose from the internet again. Then we see some nice images here. I'll go with this one. Then we say confirm position. This is the second step, after all.

What we can do then is create a third one. Let's say we go for a walk. After breakfast we'll go for a walk. We'll create a tile again and then choose from the internet again. Then we see some images here. I'll go with this one. Confirm position again. Then we can exit edit mode to see how our story looks. Let's go to start.

Then we see the morning routine below. When we click on that, we can tell our story. Then we see the first step. Then we can click next at the bottom right. Then we'll of course have breakfast. Step 2 of 3, and step 3 of 3 is walking. We can also click previous and then we go back a step. And this is how you create a story tile.
