Hello, I'm going to show you how to duplicate a tile. We do this by first going to edit mode.

We click the blue icon at the top right. Then we go to start editing, and then we can go to duplicate taxi. So let's go to the three dots at the top right of the taxi tile.

Let's click there. Then we can scroll all the way down. What we see there is duplicate taxi.

Let's indeed duplicate this one. We duplicate it in the current category. We click the button, and then we indeed see that we have added a second taxi image.
