

Change tile type

Step-by-step instructions for Change tile type in Express Me.

Watch the video, follow the steps, or open the complete transcript for a text version of the instructions.

Step-by-step instructions

1

Open the edit mode

Tap the profile icon in the top right and choose **Start editing**.

2

Open the tile

Tap the three dots on the tile whose type you want to change.

3

Change the type

Scroll to **Change tile type** and choose **Category** or **Word**.

4

Save

Tap **Confirm and save**; the type has now changed.

Hi, I'm going to show how you can change the tile type of a category or a word. Suppose we've created the word tile taxi, but we actually want this to be a category. Well, then we can change this.

First we go to edit mode. Then we click the blue profile icon at the top right. Then we go to start editing, and then we see that three dots have appeared next to the taxi tile. We can click on that.

Then we see all the settings of this tile. If we scroll down a bit, we see change tile type here. So we can simply switch from category to word and from word to category. In this case we switched from word to category.

Let's save it. And we indeed see that it's now a category. If we then exit edit mode, we now see that it is indeed a category.

If we click taxi, it's an empty category.
